

HARRY RETHERS.

A GRADUATE OF THE UNIVERSITY OF CALIFORNIA.

Who Enlisted as a Private in the United States Army Now a Lieutenant.

A University Boy in the Army.

Harry Rethers, a Corporal in the First United States Infantry, has passed the examinations for Second Lieutenant at Fort Leavenworth, Kan., and will soon return to this city to receive the congratulations of his friends and to await an appointment to his new rank.

Mr. Rethers, who is only twenty four year old, is a graduate of the State University at Berkeley. He is a native of this city and is a brother of Dr. Theodore Rethers, one of the Commissioners of Insanity. During his course at the University he became greatly interested in military affairs and announced a determination to enter the army after leaving college. He is an intimate friend of Captain Barry of the First Infantry, and upon his graduation in 1892 young Rethers enlisted in Captain Barry's command, Company A. His natural brightness, collegiate education and adaptability to a military life soon gained him promotion. Two months after his enlistment as a private soldier he was promoted to be Corporal. He is now the senior Corporal of the regiment.

During the Midwinter Fair Corporal Rethers acted as military secretary to Colonel Shafter, the Commander of his regiment, who had charge of the guard at the Fair grounds. The Corporal also acted as Sergeant of the guard. His popularity with the men was shown during the Exposition by a banquet given him by the members of the guard. They also presented him with a gold medal.

When the examinations for candidates for commissions were held at the Presidio some time ago Corporal Rethers entered and passed. He was then sent to Fort Leavenworth at the expense of the Government to try for the final examinations, success in which meant a commission. He came out of the contest with flying colors.

The young man is said to be the first native son who has ever entered the army as a private soldier and subsequently gained a commission in this manner. His position while awaiting an appointment will be rather a peculiar one. Until he is assigned to a command his actual rank will be merely that of a Corporal. It is usual, however, for the military authorities to grant a leave of absence to a successful candidate from the ranks until he is detailed for service as a Lieutenant. This will probably be done in the case of Rethers. — Examiner.

The late rain seems to have been heaviest about Santa Cruz, Monterey and Gilroy. Some damage was done to grapes yet on the vine. The previous hot weather had caused firming which was checked by the cool air coming in.

Stop-Over Privileges.

Dr. W. H. Robinson of Oakland stop-over fame has gained another victory in his litigation with the Southern Pacific Company. Judge Sanderson made an order yesterday overruling a demurrer to the answer of Dr. Robinson and others in the suit brought by the railroad to compel all claimants for damages growing out of a refusal of stop-over privileges to litigate their causes of action in one suit. The demurrer of the railroad raised the point that many of the claims sued upon were barred by the statute of limitations, because not commenced within one year. Judge Sanderson held, however, that a railroad ticket is an ordinary legal contract, on which suit can be brought at any time within four years. Had the decision been against the aggrieved passengers they would have been able to prosecute suits for only \$90,000, instead of \$578,000.

HARRY SONNTAG.

Frees a Bulldog.

The Federal Government has decided that Isaac Bottomly's bulldog is not valuable enough to warrant the United States Marshal for the Northern District of California in further holding the brute under a writ of execution. Yesterday Marshal Barry Baldwin sent the following formal notification to Sheriff White:

Dear Sir: You will please release the bulldog belonging to Isaac Bottomly now in your possession, from the execution issued in the case of the United States vs. Isaac Bottomly, in the United States District Court. Very respectfully,

BARRY BALDWIN,

United States Marshal.

A. L. Farish, Chief Deputy. Sheriff White acted immediately and notified the deputies in charges of the County Jail where the dog is confined that the canine was no longer a burden upon the Government. The execution has not been satisfied, but the estimated value of the dog will not cover the expense of a forced sale that would be necessary in order to recover upon the writ.

The brute was one of the principals in the fight that has landed its owner behind the bars of the same jail in which the Sheriff has held the dog. An expert examination of the animal made by Jailers Al White and Lane was reported to Marshal Baldwin. The report submitted placed the dog as worthless. That is why the canine is free to roam wherever it will without further hindrance on the part of the Federal authorities. Bottomly is not so fortunate. He has the prospect of remaining in jail 175 days unless he can find \$350 with which to pay his fine.

May Nannery.

May Nannery, in the White Slave now being played at the Oakland Theatre, is drawing crowded houses. Miss Nannery as Liza does some powerful and exceedingly fine acting as does also Margaret Marshall as Nance. The entire company is a good one. The play has been specially mounted and the plantation steamboat and swamp scenes are fine. Berkeleyans who desire to witness a good show by genuine artists should visit the Oakland Theatre. FRESHMAN'S GLEE.

THE JOLLY SOPHOMORE'S STEAL A MARCH AND

Capture About Sixty Tickets for the Glee Which Takes Place Next Week.

The Freshman Glee.

Sixty tickets for the Freshman glee have disappeared and passed, it is believed, into the hands of those enemies of freshmen, the sophomores. Those in charge of the glee this term secured 600 invitations and followed the usual custom of inviting, besides freshmen, only the juniors and members of the faculty. But some enterprising sophomore is believed to have gained possession of the missing sixty tickets, and so when the dance begins at the Freshman glee there will in all probability be sixty happy sophs on the floor, each of whom will doubtless enjoy the evening all the more because its pleasures are at the expense of outwitted freshmen. The Freshman glee will take place next Friday evening in the Harmon gymnasium. The committees are as follows: Decorations, Misses Wood and Mason and Messrs. Castlehurn, Conklin and Ludlow; reception, Misses Rising, Webb and Burr and Messrs. Band, Gibbons and Wood; floor manager, Fred Engstrom.

More Fast Trains.

The Southern Pacific railroad company has announced that they will place the "Shasta limited" on the road between this city and Portland, Ore., next Monday, which will be followed by a similar train every five days. A special tariff schedule has been prepared for this train. The through first-class rate, including Pullman accommodations, will be \$20; the second class rate will be \$10, including a berth in a second class sleeper.

The day for the departure of the limited train corresponds with the sailing days of the steamers of the Oregon Railway and Navigation Company and the very low second rate fare, the lowest ever in effect for a similar distance on this Coast, is a pretty broad hint to the steamship people that it is a case of open war for business. The Shasta limited will in no wise interfere with the present Oregon express service. It will only make the trip on steamer days, and the rates announced for it will not be good on other trains. It will be the fastest regular train ever run from here and Portland, making the trip in thirty-four hours, as against the regular time of thirty-eight hours made by the evening express.

On Friday, November 1st the Sunset Limited between this city and New Orleans will again resume its run, but instead of once a week as last year, it will run twice, thus giving more frequent service to the traveling public. These trains are solid vestibuled affairs, and have a composite car, including baggage, bath, barber shop, smoking room and library a dining car and two or three sleepers as needed, and are hauled over the road on a fast schedule.

At the same time the Santa Fe inaugurates a limited service over their lines from Chicago to Los Angeles, reducing the time materially, being only three days on the road. These fast trains only show what railroads can do when necessary to protect themselves, and should have been done long ago for the benefit of the public. In comparison to these runs is the service between here and Los Angeles. It is about 490 miles, and one train takes seventeen hours and the other twenty-two to go or come.

The Southern Pacific Railroad Company states that its expenses in 1894 were \$31,734,785.34, leaving a deficiency over its receipts of \$276,262.70. This showing of a loss in the business naturally makes the public, which believes there was a profit, a little curious to know somewhat of the details of this large amount of money. Does any one believe that the Southern Pacific Railroad Company is running its roads at a loss of more than one quarter million dollars per year, or in fact at any loss at all?

TOWN OFFICIAL PAPER.

THURSDAY, OCTOBER 17, 1895.

GOOD ROADS.

With the advent of a "Good Road Commission" and men of practical business qualifications on that commission, the question of having good roads will soon be settled. The commissioners are making a tour of the State, collecting statistical information and imparting the same to the public for its benefit. At the same time it is giving the people good advice and suggestions as to the best methods of accomplishing the desired end.

Within the last year a great deal of foundation work has been accomplished and further work is going on, which in course of time will make California have as good roadways as any State in the Union. Providence always assists those who try to help themselves. In this case an entirely new element comes into the field for the purpose of helping matters along. Reference is had to the bicycling element. This, although of quite recent origin, has grown to large proportions almost in a night. It extends everywhere, and its first demand is good roads and it will earnestly work for the same. On this account the cause receives a very large amount of strength, which will be used for all it is worth.

Recently Mr. Marsden Manson of the Good Road Commission, has given out some good information. He states that with the present facilities a mile of macadamized road in the country can be built, with macadam nine inches thick and twelve feet wide, for about \$2,500 per mile. A road sixteen feet wide and of the same thickness of macadam, can be built for about \$3000 per mile.

From practical experience of a number of years knowledge has been obtained that the macadamized road built at a cost of \$5000 per mile is the cheapest that can be built. Now, as stated above it can be constructed for \$3000 per mile.

Several reasons are given why it can be done so much cheaper at the present day than formerly. One reason is that the State owns quarries of the very best rock, for such purposes, to an unlimited extent and with convict labor it can produce the material at a nominal cost. Another reason is that the Commission has obtained from the railroad company prices for transportation far below the cost of any other kind of freight. The Company has been enabled to put these prices very low down on account of the large amount of this special business which will, in all probability, be performed. Each county in the State has prices fixed so that it can be determined at once what the cost will be.

To all places within one hundred miles of Folsom where the quarries are situated, the cost of building good macadamized country roads will not go beyond the prices stated heretofore.

As section after section is completed the cost of transporting the crushed rock will be cheaper as the roads over which it has to be transported by teams will be in a condition to allow its being hauled than over the unimproved highways. The good work has been commenced in a proper way and so let it go on until there is a completion.

IT IS POPULAR.

The action taken at the mass meeting at West Berkeley on Tuesday evening, in reference to the voting of \$80,000 bonds for the purpose of building a new wharf at West Berkeley which will extend out to deep water, is being endorsed by the people all over Berkeley. This idea was first advanced by the GAZETTE, and it immediately took with the masses who believe that something should be done in the interest of the west end of town.

In East Berkeley, North Berkeley and South Berkeley there has been

and now is a great deal of building going on, and the value of real estate has been steadily advancing. The cause of all this is that the University is in East Berkeley; also the Deaf, Dumb and Blind Asylum, electric roads which afford a quick trip to Oakland and thence to San Francisco. In West Berkeley there has been scarcely any building going on during the past year, and the value of real estate has diminished instead of increasing. If a new High School is built East Berkeley would be the natural and proper place for it, and it would enhance the value of property there still more, and West Berkeley property owners, while having to pay their proportion of its costs would receive none of its benefits, so far as the increase in the value of their property was concerned.

The building of a wharf at West Berkeley would be of great advantage to that section of town as it would at once offer an inducement to manufacturers who would soon take advantage of the offers and do their business upon this side of the bay.

It would also be the stepping stone to a competing ferry and that would mean electric cars of one or more lines in West Berkeley. When these things come to the West End of town it will be only a short time before the population of the West End will be doubled and the erection of manufactories, stores and dwelling houses will be noted on every hand. The shipping that will be done at the new wharf will always make that a busy place and the income will go far towards paying the interest on the bonds and a portion of the principal. It is simply a most excellent investment.

No time should be lost by the Trustees in calling an election for the wharf bonds and it is hoped that the proper steps will be taken by the Trustees at the next meeting of the Board. Now is the time to strike, while the iron is hot. The wharf bond election should be followed just as soon as possible by the school bond election. We believe that the wharf bonds could all be sold right in Berkeley to Berkeley people. The people are ripe for this proposition now and it should be forced right ahead.

The town of Tehachapi was nearly all destroyed by fire yesterday morning.

The New York Yacht Club has accepted the challenge of the Royal Victoria Yacht for America's cup.

Walter Foster at Napa Tuesday beat the world's record for an unpaired team six seconds, and equalled the world's record, both being a distance of a third of a mile. His time was 32 2 5 seconds.

There is a chance for Corbett and Fitzsimmons to fight on the U. S. flag-ship New York, at Hampton Roads. A prize fight came off on board that vessel on Saturday night last, in which one of the participants was knocked out in the eighth round. Full particulars will probably be found in the Secretary of the Navy's report.

There is one thing in this world that in order to give satisfaction has got to be perfect, and that is a photograph. Naturally the artist who is thorough in his business and produces perfect pictures gets the trade. This accounts for the immense business done by Evans, the photographer at 1065 Washington street. He takes the finest cabinets in the land for \$3 per dozen and has a large Berkeley patronage.

An Early Betrothal.
In the early days of California the daughters of the Lugos were sought in marriage by the best families of the state. It was a boast that they were even courted in the cradle, as when the young officer, Colonel Ignacio Vallejo, being in San Luis Obispo on the occasion of the birth of a daughter to the Lugos, asked her father for the hand of the day old baby, provided when the time came to fulfill the contract the senorita should be willing. This seemingly absurd betrothal took place. The child grew up to be an intelligent as well as attractive young woman, married her betrothed and became the mother of many children, among them Mariano Guadalupe Vallejo.—Overland Monthly.

Portrait of Commodore MacDonough.
A recent addition to the portrait gallery of the navy department is a rare old oil portrait of Commodore MacDonough, the naval hero who rendered Perry valuable assistance in his memorable engagements on the lakes in the war of 1812. The portrait is the work of Jarvis and is owned by one of the old families of Charleston, S. C. Assistant Secretary McAdoo saw it on a recent visit to that city and brought it back with him to Washington with a view to its purchase by the government, as a companion piece to the portrait of Commodore Perry, now in the navy department gallery.—Washington Star.

Slow to Tumble.
She had now become desperate.
"Your family has a grand name," he observed.
"I would prefer almost any other," she rejoined with a promptness sufficient to suggest that she had given the subject thought.
After a time she sat as one in a trance, and wondered what would be the chances of his tumbling if a wheel elevator were to precipitate itself upon him.—Detroit Tribune.

A Bible Courtship.
A young gentleman at church conceived a most sudden and violent passion for a young lady in the next pew, and felt desirous of entering into a courtship on the spot, but the place not suiting a formal declaration the exigency suggested the following plan: He politely handed his fair neighbor a Bible, open, with a pin stuck in the following text—second epistle of John, verse 5: "And now I beseech thee, lady, not as though I wrote a new commandment unto thee, but that which we had from the beginning, that we love one another." She returned it with the following—second chapter of Ruth, verse 10: "Then she fell on her face and bowed herself to the ground, and said unto him, why have I found grace in thine eyes, that thou shouldst take notice of me, seeing I am a stranger?" He returned the book, pointing to verse 12 of the third epistle of John. "Having many things to write unto you, I would not write with paper and ink, but I trust to come unto you and speak face to face." From the above interview the marriage took place the coming week.—Scottish American.

We Are Hopeful.

The gentleman referred to at the mass meeting on Tuesday evening last, as being in Berkeley for the purpose of obtaining a location for a large manufactory, is in town again today and will probably come to a final conclusion within a day or two as to whether he will locate at the West End or not. He is well pleased so far but is quite anxious about having a wharf where there is deeper water than any present facilities affords. The idea of the Bancroft way wharf suits. Should he come here he will give employment to 150 to 200 men, and of the kind that has families.
